

ANDREY PARKHOMENKO

Almaty • +7 747 391 8404 • ataflava@gmail.com • <https://t.me/fishrockk>

Fullstack Developer

With 5 years of full-stack development experience, I have built scalable web applications across both frontend and backend, developing responsive interfaces, designing and integrating APIs, and implementing complex business logic. I have worked with **JavaScript/TypeScript, React, Next.js, Node.js, Go, and Camunda**, participated in architectural decisions, and optimized and refactored legacy systems. I have experience building maintainable backend services, integrating external systems, and improving application performance and reliability. I also leverage AI-assisted development tools to accelerate coding, refactoring, testing.

SKILLS

TECH STACK: JavaScript (ES6), Go, Node.js, TypeScript, React, Redux, Next.js, NestJS, Angular, Vue, Camunda, Vuex, Nuxt.js, React Native, Expo, Express.js, CSS (SCSS, SASS), MongoDB, MySQL, Firebase, Git, GitHub, Webpack, Babel, Vite, Docker, CI/CD, GitLab Actions, GraphQL, Apollo, OOP, Functional Programming, Strong problem-solving, IT market research, HTML, CSS, Zustand, AI-assisted development, OOP, REST API, PostgreSQL

WORK EXPERIENCE

Tele2

05/2023 – Present

Fullstack Developer

- Developed internal CRM systems
- Took part in architectural decisions
- Participated in internal tech conferences
- Refactored and optimized legacy code
- Used AI tools to assist in code generation, refactoring, and documentation, improving development speed and efficiency
- Built and integrated backend services and REST APIs using Node.js and Go

Kaspi.kz

07/2022 – 05/2023

Fullstack Developer

- Built responsive user interfaces
- Integrated backend and third-party APIs
- Connected CMS and databases
- Developed full-stack features for internal and customer-facing web applications

Eco Center Bank

11/2021 – 07/2022

Fullstack Developer

- Implemented business logic for client applications
- Developed UI for charts and tables
- Integrated authentication flows
- Maintained and refactored legacy code
- Developed APIs and integrations between application services

Uchet.kz

05/2021 – 11/2021

Fullstack Developer

- Developed and maintained full-stack web applications for business users, enhancing user experience and functionality within 6 months.
- Set up and maintained code review practices
- Integrated APIs and handled data fetching
- Developed scalable and maintainable frontend applications using modern JavaScript frameworks

EDUCATION

Master's Degree: Building Design and Construction

Kazakh Leading Academy of Architecture and Civil Engineering

01/2017 – 01/2018

Bachelor's Degree: Building Design and Construction

Kazakh Leading Academy of Architecture and Civil Engineering

01/2014 – 01/2017

PROJECTS

Dance Courses Platform – Vite Dance (Startup)

Personal

- Designed and developed frontend architecture for an online education platform
- Built user flows, course structure, and product logic from scratch
- Managed product decisions and feature prioritization
- Leveraged AI tools to accelerate development and content creation
